

Financial Statements

{hormenu}{/hormenu}

Sound financial management and transparency in programs help assure the highest quality care for children who have been neglected and abused. The links below provide the most current audited financial statements to show you the agency's financial position. Here you'll find the Combined Statement of Financial Position and the Combined Statement of Activities from Independent Auditors' Reports for the most recent years. Plus, we've included the most current Forms 990, Return of Organization Exempt from Income Tax. Our Controller is preparing for the 2008 Fiscal Year audit now -- we'll post that information as quickly as the auditor's review is completed.

Our financial statements have been posted in Adobe Acrobat Reader (PDF) format.
