

Child Advocacy Mini Site

{hormenu}0|1{/hormenu}

It's true. It does take all of us to raise each of God's children.

That's why our board and staff have asked us to create a special place where parents can find ways to create safer places for children — or to write timely messages to our elected officials and law makers.

Mark this place as a "Favorite" and watch as we develop this important Child Advocacy link. We'll be up and operating real soon.
